Description

16 oz. Bottle.

Cy-Kick CS is a broadband liquid concentrate insecticide. Cy-Kick is a great residual spray that provides 90 days of control. This product is safe to use indoors and also works well as a perimeter treatment around your home or business. This product can control a wide range of pests including ants, cockroaches, fleas, crickets, silverfish, ticks, wood destroying insects, and many more. Label rates call for 1 to 2 ounces of Cy-Kick per gallon of water so each 16oz. container goes a long way. Apply Cy-Kick with anything from a small pump-up handheld sprayer to an ATV sprayer or beyond. Cy-Kick's active ingredient is a pyrethrin derivative, meaning it is user-safe, easy on the environment, and less likely to cause skin irritations to the applicator. Remember always follow the label when applying any pesticide.

Active Ingredient:	Cyfluthrin 6.0%
