Description

4 lb. Bag

General Product Information

Rabon® 50 WP is a water soluble powder for use in eliminating a wide variety of pests, such as fleas, litter beetles, ticks, lice, mites, flies, maggots, and fowl ticks. It is EPA approved for direct use on poultry, cattle, swine, and horses. As a premise spray, it may be used in poultry houses, yards, general outdoor areas, kennels, and in dairy or swine barns.

For Use On

Cattle, Poultry, Swine, Horses, and their premises

Ingredients

Tetrachlorvinphos(Rabon®) - 50.0% by weight

Directions For Use

Rabon 50 WP is suitable for use in conventional power or low pressure knapsack sprayers. Frequent agitation is recommended to prevent undue settling of the suspension. See label for specific use directions. Refer to DILUTION TABLE for the quantity of insecticide needed to make the percent solution recommended.
